WHAT I DELIVER

- Revenue Leakage & Shrinkage Control
- Multi-Branch Store Inventory Sync
- End-of-Day Financial Shift Audits
- Statutory Tax Compliance (VAT / WHT)
- Process Automation & BPMN Mapping
- Executive Dashboards & KPI Analytics

CORE COMPETENCIES

BUSINESS ADMINISTRATION

- Operations & Process Improvement
- Financial Modeling, Budgeting & COGS
- Strategic Planning & Market Research
- Project Management (Scope & Budget)
- Business Writing & Communication

INFORMATION SYSTEMS

- Systems Analysis & Design (BRD, RTM)
- Business Process Modeling (BPMN / UML)
- BI & Reporting (Power BI, Excel, DAX)
- Database Management (SQL, PostgreSQL)
- Web Applications & FinTech Integration

KEY TOOLS & TECHNOLOGIES

- Power BI · Microsoft Excel (Advanced)
- SQL (PostgreSQL, SQLite, MySQL)
- Python (pandas, data analysis)
- Next.js · TypeScript · PHP · Tailwind
- Telebirr · CBE Birr · Chapa Gateways

CERTIFICATIONS

- Udacity**
Data Science Nanodegree
- Udacity**
Fundamentals of Programming

KEY BUSINESS IMPACT

- 38.5%** Shrinkage Reduction
- 1.84M ETB** Annualized Savings
- 1.2M+** Single-Use Bags Diverted
- 150M+** Data Points Harmonized

LANGUAGES

- English: Professional Proficiency
- Amharic: Native / Bilingual

PROFESSIONAL SUMMARY

Business Administration and Information Systems specialist (Addis Ababa University) dedicated to translating organizational goals into robust operational workflows, data intelligence pipelines, and reliable digital systems. Proven capability in diagnosing business inefficiencies, automating statutory tax compliance (VAT / Withholding), eliminating inventory shrinkage, and synchronizing multi-branch retail operations with Ethiopian digital payment ecosystems (Telebirr, CBE Birr). Experienced across formal Business Analysis (BRD, BPMN, UAT), executive BI dashboards, and production web platforms.

EDUCATION

- Bachelor of Arts — Business Administration & Information Systems** 2023 – Present
Addis Ababa University · College of Business & Economics · School of Commerce
 - Core Business & Systems Curriculum:** Database Systems, Quantitative Business Analysis, Strategic Management, Financial Accounting, Enterprise Information Systems, Systems Analysis & Design, Operations Management.

FEATURED BUSINESS & TECHNICAL PROJECTS

- Kaldi's Coffee: Multi-Branch Inventory & Sales Tracking Engine** 2026
Enterprise Operations · Next.js 14, TypeScript, Prisma ORM, SQLite, FinTech Ledgers
 - Business Challenge:** High inventory shrinkage, lack of cross-branch stock visibility, and manual end-of-day cash and mobile wallet reconciliation taking over 45 minutes per shift.
 - Solution & Implementation:** Built a centralized multi-branch management platform linking sales to automated recipe ingredient depletion (Bill of Materials) and first-in first-out (FIFO) perishable stock rotation across 5 Addis Ababa branches. Integrated daily shift reconciliation auditing physical register cash against Telebirr (46%) and CBE Birr (28%) digital transactions.
 - Business Impact:** Achieved a **38.5% reduction in stock shrinkage**, generated **1.84M ETB in annualized cost recovery**, cut shift reconciliation to **<8 minutes**, and authored a complete BA suite (BRD, BPMN workflows, RTM, and UAT scenarios).

- EcoBag Addis: Localized Sustainable E-Commerce Platform & BA Suite** 2025
Product Architecture · Next.js 14, Node.js/Express, TypeScript, PostgreSQL, Prisma
 - Business Challenge:** Local e-commerce barriers including delivery failures from missing street addresses, manual tax calculation bottlenecks, and risk of duplicate online payments.
 - Solution & Implementation:** Formulated comprehensive business requirements resolving market friction: engineered 5-tier landmark-based delivery addressing across 11 sub-cities, an automated 15% VAT and 2% Withholding tax engine with 10-digit TIN validation, and multi-wallet checkout (Telebirr, CBE Birr, Chapa) with automated duplicate-charge prevention.
 - Business Impact:** Supported diversion of **1.2M+ single-use plastic bags**, decreased courier misdirection to **<2%**, and enabled sub-2-second automated statutory proforma generation.

- REGALFRONT Consultancy PLC: Full-Stack Production Web Platform** 2026
Client Solution · PHP, MySQL, JavaScript, Tailwind CSS, Google Analytics 4
 - Business Challenge:** Ethiopian strategic advisory firm needed an authoritative online presence and a secure lead intake pipeline to engage international NGOs, UN agencies, and government institutions.
 - Solution & Implementation:** Delivered a fully responsive web platform with structured client proposal intake, automated email notifications, and an authenticated administrative dashboard. Configured Google Analytics 4 conversion tracking to monitor inbound client leads.
 - Business Impact:** Established digital authority, accelerated strategic consultation inquiry response times, and achieved 100% search engine indexation.

- Global Pandemic Impact & Health Data Intelligence** 2025
BI & Analytics · SQL, Power BI (DAX Star Schema), Python (pandas), Advanced Excel
 - Business Challenge:** Multi-country health datasets suffered from inconsistent reporting and regional double-counting, obscuring true infection and vaccination rollout dynamics.
 - Solution & Impact:** Reconciled 150.5M+ records across 210 countries using structured SQL queries to eliminate aggregation errors; constructed interactive Power BI dashboards and Excel analytical models delivering verified trend insights for public health decision support.

- Ethiopia & East Africa Macroeconomic Analytics** 2025
Macroeconomic Modeling · SQL, Excel, Python (pandas), Power BI
 - Business Solution & Impact:** Harmonized World Bank development indicators across Ethiopia, Kenya, Uganda, Tanzania, and Rwanda; developed predictive Compound Annual Growth Rate (CAGR) models and Power BI visual dashboards to evaluate regional economic growth, demographic trends, and market expansion opportunities.

METHODOLOGIES & OPERATIONAL FRAMEWORKS

- Business Analysis:** Requirements Gathering (BRD), Traceability Matrix (RTM), BPMN Process Flows, UAT Testing & Acceptance Criteria.
- Regulatory Compliance:** Ethiopian MoR 15% VAT & 2% Withholding Tax Rules, Buyer TIN Validation, Proforma Invoicing Standards.
- Operations & Controls:** First-In First-Out (FIFO) Stock Allocation, Bill of Materials (BOM) Costing, Cash/Digital Ledger Auditing.
